### PECHANGA SIGNATURE GREAT OAK MASSAGE

The Great Oak, known as Wi'áasal by Pechanga people, is recognized as the largest and one of the oldest naturally grown indigenous coast live oak. The tree symbolizes strength. The Great Oak Massage works to restore well-being into muscles, tired joints, and promotes overall healing. The treatment begins with the gentle practice of deep breathing techniques. The Tree of Life botanical essential oil diffuses through the treatment room as the provider applies Himalayan stones to the guest's back to begin the massage. Stress further slips away as Tree of Life massage oil is worked into your neck, back, legs and feet. The massage concludes with a Rosemary Mint Reflexology foot massage.
