Lucky Stiff[®]

is a companion bet for Blackjack that offers some lucky prospects when you get a “stiff” hand on the initial deal.

How to Win

Start by placing your main wager and optional Lucky Stiff wager. If your stiff hand is paired (66, 77 or 88), your Stiff bet wins instantly and pays 10 to 1. If you have blackjack, your Stiff bet wins instantly and pays even money, whether or not the dealer has blackjack. If your first two cards total hard 12 through 16, your Stiff bet wins and pays 5 to 1 if you beat the dealer on the main blackjack wager. You may stand or hit as normal to beat the dealer.

LUCKY STIFF PAYS

First Two Cards Must Total Hard 12-16

Beat the Dealer 5 to 1
Stand or Hit to Win • Ties Push
